Industrial Design student at RISD who takes physical products from sketch through CAD, prototyping, and shop fabrication, with growing UX/UI experience in user research and Figma prototyping. Interested in user-centered, sustainable design.

Education

Rhode Island School of Design (RISD) — Providence, RI · Expected May 2028
BFA in Industrial Design · Minor in Nature, Culture, and Sustainability Studies (NCSS)
Relevant coursework: Design + Entrepreneurship, Furniture Design, Wood I, Metal I

Brown University · Eco Entrepreneurship — Providence, RI
Sustainability-focused entrepreneurship course exploring ideas for environmental and social impact

Projects

Hearth · Camping drinkware set — Industrial Design
- Developed a coordinated camping cup and pitcher set through sketching, 3D CAD modeling, and iterative form development.
- Focused on usability, portability, and a cohesive product language across both pieces.

The Maker's Wrap · Ceramics apron — Industrial Design · Soft Goods
- Designed a wraparound apron to support the tactile, hands-on process of hand-building clay.
- Combined durable denim, cream binding, and a gathered ruffle to balance functional coverage with expressive construction.

Edify · Mobile tutoring platform concept — UX/UI Design
- Designed an app connecting parents with remote tutors based on students' needs, schedules, and learning goals.
- Conducted user research and turned findings into personas, user flows, wireframes, and high-fidelity Figma prototypes.

Experience

Model Shop Monitor · Rhode Island School of Design — Sep 2026 – Present
- Guide students on safe fabrication, material selection, and machine setup in wood and metal shops.
- Troubleshoot physical builds and enforce shop safety protocols.
- Maintain table saws, bandsaws, sanding stations, metalworking tools, and dust collection systems.

Campus Representative · Regeneration Field Institute — Jul 2026 – Present
- Lead recruitment and outreach campaigns across RISD and Brown University, presenting its sustainable innovation initiatives.
- Use visual and verbal storytelling to communicate program value to multidisciplinary student groups.

Graphic Design Intern · Calculus Project (Nonprofit) — May 2025 – Aug 2025
- Designed print collateral, presentation graphics, and brand assets in Adobe Creative Suite on tight deadlines.
- Helped create interactive learning visuals with educators and team leads, supporting 120+ students.
- Developed promotional materials and donor forms reaching 100+ prospective donors in a consistent brand identity.

Team Member / Cashier · Michaels — Westwood, MA · Aug 2021 – May 2025
- Facilitated hands-on craft workshops, guiding participants through materials and techniques.
- Handled high-volume inventory flow and point-of-sale operations.

Skills

Industrial Design & CAD	Rhino, SolidWorks, KeyShot, 3D CAD Modeling, Concept Sketching, Pen-and-Ink Rendering
Prototyping & Fabrication	Physical Prototyping, Model Making, Foam Modeling, 3D Printing, Woodworking, Metal Fabrication
UX/UI Design	Figma, FigJam, Framer, User Research, Personas, User Flows, Wireframing, Usability Testing
Visual Communication	Adobe Creative Suite (Photoshop, Illustrator, InDesign), Procreate

Certification

Google UX Design Professional Certificate — Apr 2024 – Jul 2024
User-centered research, rapid prototyping, usability testing, and digital-physical integration
